VOLUME-BASED WATER BILLING

Since your City water billing rate is based on cubic feet of water, you may ask how cubic feet compare to gallons. One cubic foot equals 7.48 gallons of water. This means that the first tier, where most residential consumption falls, is from 0 to 5,236 gallons at 0.00441 cents per gallon. Volume is noted in the graph on your statement as "Prior Cons" (prior year consumption) and "Current Cons" (current year consumption). Listed below is the breakdown for all tiers and rates:

0-700 cubic feet (0-5,236 gallons)	
701-2000 cubic feet (5,236-14,960 gallons)	\$3.30/100 cubic feet*
2000 + cubic feet (14,960+ gallons)	\$3.95/100 cubic feet*
Multi	\$6.70/100 cubic feet*
Family/Commercial	\$4.35/100 cubic feet*

* 7.48 Gallons = 100 cubic feet

SANITATION SERVICES

Fees include a flat rate for garbage and recycling pickup and landfill charges. All residential customers are required to participate in the City of Moscow sanitation service provided by Latah Sanitation, Inc., but are not required to participate in recycling service. The following is a list of holidays that affect garbage and recycling collection: New Year's Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving and Christmas. When one of these holidays falls on a Monday through Friday, garbage and recycling collection will be one day behind. Normal service will resume the next Monday.

ARE YOU MOVING?

If you move without notifying the City to discontinue service, you will be responsible for all metered water, and other billed services until we are notified of the change. No person, except authorized city employees, shall turn on or off water at the meter or tamper with a meter or meter box. Water service lines, and their maintenance, from the meter to the building are the responsibility of the owner.

To avoid being billed for water and other services you are not using, please call 208-883-7043 at least two business days before you want service discontinued. You are responsible for all water used at your location.
